Personal Projects:

Weather application: An aesthetically pleasing weather app providing comprehensive information and user-friendly design. It stands out with its proactive alerts, setting it apart from other weather apps.

Cinema booking: A movie booking app offering reviews, listings, theater locations, and booking alerts for a seamless cinema experience. Simple and user-friendly, it's your go-to for all things movies.

Stream ARA: A one-stop streaming platform with a user-friendly interface for sharing videos and photos, connecting with friends, and receiving personalized recommendations.
